When last seen, from the Severn, the Africa was rolling heavily, and suddenly disappeared from view.

The Severn finally fetched up on the beach five miles north of Loyal Island. She became a total loss. The crew were saved by some fishermen after being in the rigging twenty hours. The Africa's lifeboat and life preservers were picked up on the island.

WITH MANY DELEGATES.

Congregational Triennial Session at Syracuse, N. Y.

Syracuse, N. Y., Oct. 10.—The ninth triennial session of the national council of the Congregational churches of the United States opened at 10 o'clock yesterday at Plymouth church.

The proceedings were opened with an address by Rev. Alonzo N. Quirt, of Boston, the retiring moderator.

Nelson Dingley, M. C., of Maine, was chosen moderator, without opposition, and Rev. Charles O. Brown, of San Francisco, and Professor George W. Henderson (colored), of New Orleans, were elected assistant moderators.

The report of the committee on church manual was given by Rev. A. H. Quint, D.D., of Boston. It consisted of suggestions for rules for the establishment and government of churches and members, and covered the entire church polity. It presented no changes, but was the compilation of many established rules into a convenient form.

The report was referred to a special committee who will submit a report. At the evening session, after prayer by Rev. Henry A. Hazen, of Auburn, Mass., and a song, the council adjourned until this morning at 9 o'clock.

At the overflow meeting in the Fourth Baptist church short addresses were delivered.

TRY TO WRECK A TRAIN.

Robbers Explode Dynamite Under the Cincinnati-St. Louis Express.

Cincinnati, Ohio, Oct. 10.—An attempt was made near Cochran, Ind., to wreck the Baltimore and Ohio southwestern express, which left here at 8 o'clock Tuesday night for St. Louis.

The engine struck a dynamite cartridge that had been fastened to the inner rail. Engineer Tom Higson and his fireman were badly stunned.

The fireman was unfit for work. Fortunately the cars did not leave the track. The motive of the attempt was evidently robbery. Several suspicious characters were seen by the trainmen about the place, but no attempt at robbery was made by the thieves when they saw that the train was safe.

This election was made the order of the day for Friday morning. On Tuesday evening of next week there will be a grand rally in the interests of the young people. It will be a night for alliance workers and members, and addresses will be given in English and German.

Many Buildings Were Burned and The Loss Will Reach \$250,000 or About \$1,250,000—Portsmouth, Va., Visited By a Blaze That Ate Up \$300,000 Worth of Property.

Sydney, Oct. 10.—A block of buildings on Bagley street, Coolgardie, Australia, burned yesterday, and the loss will figure up to a quarter of a million pounds.

Norfolk, Va., Oct. 10.—A fire caused by a broken electric wire, started in warehouse D, of the Seaboard Air Line, in Portsmouth, at 7:20 o'clock yesterday, which destroyed that structure, together with thousands of dollars' worth of freight, including 700 bales of cotton, nine loaded freight cars, and the warehouse and stave yard of Reed Bros. & Co., adjoining. Two men were cut off from escape, and jumped overboard, one of them, W. H. Hall, white, being drowned. The ferry wharf and a lumber yard intervening repeatedly took fire, but the flames were promptly extinguished by the ferry boats. Aid was sent by the Norfolk and Berkley fire departments, and from the United States navy yard. A barrel of nitrate of soda, the property of W. R. Grace, of New York, stored in the Reed warehouse, exploded with a deafening report. The concussion shook the roofs in that vicinity.

The loss is estimated at \$300,000, on which there is about \$75,000 insurance on the Seaboard Air Line's warehouse. There is insurance on all the property burned, but the amount cannot be ascertained.

TO FIGHT IN ARKANSAS.

Corbett-Fitzsimmons Contest May Take Place at Hot Springs.

Dallas, Tex., Oct. 10.—So far as Texas is concerned, the Florida Athletic club no longer exists. So far as prize fights are concerned, all contracts heretofore made in New York or elsewhere for contests to take place in Texas under the Florida Athletic club's auspices have been declared off.

At 5 o'clock yesterday morning it was determined to transfer the headquarters of the club to Hot Springs, Ark., and to pull off the Corbett-Fitzsimmons, the Maher-O'Donnell and the Ryan-Smith fights at that place on the original dates scheduled for Dallas. No formal contracts to this effect were entered into but a satisfactory understanding embodying these arrangements were arrived at.

Little Rock, Ark., Oct. 10.—A special telegram from Hot Springs says Mayor Waters of that place telegraphed from Dallas, Tex., that both Corbett and Fitzsimmons are willing to pull the fight off at Hot Springs and that the mill would probably take place there. Governor Clark said that he had nothing further to say about the business. The fight he asserts will not take place on Arkansas territory.

Michigan Presbyterian State Synod.

Adrian, Mich., Oct. 10.—Yesterday's session of the Presbyterian State Synod was devoted to completing the organization and the hearing of committee reports. In the afternoon Dr. F. F. Ellinwood, of New York, secretary of the Board of Foreign Missions, criticized the United States and other governments for their lack of sympathy with the missionary movement, saying that while they exerted every effort to subdue the Chinese outbreaks they snarled when their navy department was called upon to protect a missionary.

The report on home missions, made by Rev. David Howell, of Lansing, showed fewer vacant pulpits than at the last synodical meeting, although the church debt had increased.

Boston Wants the Convention.

Boston, Mass., Oct. 10.—The regular October meeting of the Republican Club of Massachusetts was held yesterday afternoon and committees were appointed to select nominees for next year's officers. A TOWN SWEEPED AWAY BY WIND AND WAVE

FLOOD AND HURRICANE COME AT ONCE.

La Paz, the Capital of Southern California, Wiped Off the Map—Men, Animals and Houses Are Carried Out to Sea—City Had a Population of 3,000.

San Francisco, Oct. 10.—Private advices say that La Paz, the capital of Lower California has been destroyed by a hurricane that was followed by a tidal wave of unprecedented height which carried men, animals and horses out to sea. The city had a population of three thousand.

The dispatch was received by a shipping agent named Reuter, who left town on business and took the message with him. The dispatch says the steamer Willamette Valley, of the Pacific Mail line, has been delayed two days at Guayamas by the same storm which devastated La Paz, but that she left Guayamas last night for the north. Mexicans here say they have had dispatches about a severe storm which prevailed all along the coast early this week.

A NEW DIOCESE.

Episcopal House of Deputies Makes a New Division.

Minneapolis, Oct. 10.—Another new diocese was authorized by the house of deputies of the Episcopal convention yesterday, that of Northern Michigan. Judge Fairbanks, of Florida, introduced his resolution for an amendment to the constitution giving authority for the session of missionary jurisdictions, but objection was made and it went over.

The report of the trustees of the fund for the relief of aged and infirm clergymen showed that the receipts for the three years had been \$81,494, and that for fifty-nine clergymen, 166 widows and twenty-four orphans \$48,235 had been paid out.

Atlanta was selected as the meeting place for the convention in 1898. The house of bishops is not expected to concur in the selection, as the bishops favor Boston.

The House of Deputies by a vote of 162 to 152 decided to substitute the word "primate" for "presiding bishop."

The house, by an increased majority, reaffirmed its position in favor of "bishop coadjutor," instead of "assistant bishop." The committee on the division of the Diocese of Tokio, Japan, reported that it had no jurisdiction in the matter, and asked to be discharged.

The service at the church over, the remains were escorted to Blandford cemetery by the Petersburg Grays, Confederate veterans, and citizens, a detail of twenty veterans from R. E. Lee camp, and delegations from the "Old Grays" society of Richmond, and also a delegation from the Soldiers' home of that city. When the cemetery was reached, Rev. Dr. Rideout read the burial service, and as the body was being placed in the vault three volleys were fired by the Petersburg Grays, which concluded the sad and solemn exercises.

Illinois Federation of Labor.

Peoria, Ill., Oct. 10.—The principal events of the second day's session of the Illinois Federation of Labor were the development of a movement in behalf of Cuba and the presentation and consideration of the report of Secretary and Treasurer Groves, of Chicago. Some changes were made in the constitution, as regards the per capita tax. At the afternoon session the convention indorsed the recommendation made in the president's address, advocating a state constitutional convention. A resolution was adopted expressing sympathy with Debs, but stating that the federation did not indorse his warfare against trade unionists.

Winnipeg, Man., Oct. 10.—Premier Greenway estimates that Manitoba raised this year 20,000,000 bushels of high grade wheat, 10,000,000 of lower grade but merchantable wheat, and 5,000,000 of feed wheat. There are 20,000,000 bushels of oats above home requirements of 8,000,000, of which a large portion will not be thrashed because of low price and high freights. There are also 6,000,000 bushels of barley. There are less than 25,000 farmers in the entire province.

For Ohio River Improvement.

Cincinnati, Ohio, Oct. 10.—By the adoption of a constitution and by-laws a permanent organization of the Ohio River Improvement association was perfected here yesterday. The plan of M. R. Sulzer of Madison, Ind., for an Ohio river commission similar to the Mississippi and Missouri river commissions was adopted, but after-ward reconsidered, and the executive board authorized to represent the association in Washington and elsewhere.

THE EUROPEAN SITUATION.

Germany Thoroughly Satisfied with the Condition of Affairs.

Berlin, Oct. 10.—A person at court who is exceedingly well informed in diplomatic affairs and as regards the views of the emperor, made the following statement: "Our position in Europe becomes more and more enviable and one would be blind not to see it. France is held in check by Russia's Asiatic policy. Russia's most important and most urgent object is the paralyzing of the new great Asiatic power namely, Japan—with whom she must sooner or later clash arms. What would become of Russia should she not be friendly with Germany during this engagement for life or death? She is therefore absolutely forced to cultivate loyally a good understanding with us. It is a matter of necessity which causes this attitude. As to England, she is obliged to make us important concessions should she desire our support in the questions in which we have interest. This situation constitutes a great advantage. From our point of view it enables us to maintain the European peace, for this is necessary for our normal interior development. At the same time it gives us a good opportunity for imparting impulse to our interests outside of Europe."

EPIDEMIC ENDED.

Only Two New Cases at Honolulu in Fourteen Days.

Honolulu, Oct. 2, via San Francisco, 9.—But two cases of cholera have developed in the last fourteen days. The record to date is 87 cases and 63 deaths. But two white people have succumbed to the disease. Of the total number of cases 82 were Hawaiians. The natives persistently refused to report cases until the victims were dead or dying. They say the cholera was brought to the country to exterminate them and blame the white men for the visitation. There is considerable doubt as to the real nature of the disease. Many claim that it is not cholera and attribute the trouble to poisoned fish. The majority of cases were taken from houses that border on the stream from which the fish were taken and eaten raw. The two white people who died attended a native feast and ate the fish.

New Railroad Line Talked Of.

Cleveland, O., Oct. 10.—Another Baltimore & Ohio enterprise is discussed here. It is said that a new line from this city to Lodi, on the Pittsburg, Cleveland & Chicago line, is in contemplation and that route has been surveyed. The object is to get a shorter line from here to Chicago. The distance saved would be thirty-five miles. It is said that the branch extending south from Lodi to Millersburg may be extended to Mount Vernon on the Columbus & Newark division, thus affording an outlet to the south and west from Cleveland. The officials neither deny nor affirm the truth of the rumor.

Springfield, Ill., Oct. 10.—Governor Altgeld authorizes the Chicago Inter Ocean to say that there is no foundation whatever for Secretary Hinrichsen's statement that the governor had notified the democratic state central committee that he would be a candidate for re-election. He says the office is a very expensive one to hold; that he cannot get through on the salary and the amount allowed for running the mansion, and that he continually runs behind in finances.

Palmer and others and received its charter from the Grand Commandery of New York. The grand commandery is composed of the three principal officers of each commandery in its jurisdiction, of its own past officers of the four highest ranks and of past commanders of subordinate commanderies. The body in this state was formed in 1859 and composed of the representatives of Wisconsin, Janesville and Robert Macey (Madison) commanderies; then existing. Its first officers were in order of rank Henry L. Palmer, Erasmus Lewis, Henry M. Billings, Henry M. Tracy, Michael F. McKee, Alden S. Sanborn, Samuel S. Daggett, John W. Hunt, Augustus A. Bird, Ebenezer Irons and Barnabus B. Eldredge. Messrs. Eldredge, McKee and Lewis resided at Janesville, Billings, Baird, Sanborn, Hunt and Bird in Madison or that vicinity and the remainder at Milwaukee. The only survivors at the present time are Judge Palmer who is still active in Masonic work and Mr. Eldredge.

The order has always included in its active membership many eminent citizens, among them A. V. H. Carpenter, Jeremiah M. Rusk, William H. Hiner, Nathan C. Giffin, General Chandler P. Chapman, the Rev. Samuel F. Fallow, the Rev. Hugh Miller Thompson, the Rev. Charles S. Lester, Samuel S. Daggett, Michael Griffin, Sherburne S. Merrill, General Lucius Fairchild, Governor George W. What do you want this fall? Do you want to be well and warmly dressed? And in order to obtain this end, you want to buy good strong woolen suits and overcoats, which you can get of us at \$6.50 to \$15. What you don't want are the cheap, trashy overcoats and suits you can find advertised in the daily papers every day. I know, readers, you have got good common sense. You know that these honest clothing merchants don't divide up with you when they sell you a \$15 suit or overcoat for \$7.50. You know they make money on their trash even at that price, don't you? You know also, that you can't get an honest \$15 suit or overcoat for \$7.50, don't you? Don't it disgust you when you read such trash? I'll bet it does. You know these baits are for suckers. You know when one clothing man advertises his suit or overcoat for just one-half what his neighbor charges for the same thing you know he is a prevaricator of the worst type. Don't let these spiders get far into their nets. You will save money if you will patronize an honest merchant. We should like to show you good honest well made suits (none better) at \$6.50 to \$15.00. We are showing several lines of handsome suits at \$7.50. They are not worth \$15.00; they are worth just \$7.50. You'll like them. We want your trade. T. J. Zeigler.

A Word Saver in Verse.

Here's a word-saver poem from the Menkots, Minn., Review. What do you think of it?

Some cooks bake with cottonole,
" " " " "lard,
" " " " "use no grease at all,
But their crust's mighty hard.
Some men chew their plug tobacco,
" " " " "the tag,
" " " " "never wear their jaw
Except to chew the rag.
Some men put their ads. in papers,
" " " " "them on the fence,
" " " " "never advertise
Who ought to have more sense.

The Stronger the Better.

The highest commendation that can possibly be put into words on paper is none too strong for our special own design of \$2.50 Dongola kid shoe. To make it popular is a thing that with little effort can be accomplished. A shoe with the quality and style about it costs \$3.00 or \$3.50 at other places, and the best of it is no other dealer can duplicate the goods. A. Richardson Shoe Co.

FIRST STREET MADE WITH THE ROLLER

NEW MACHINE USED NEAR THE
"LOWER BRIDGE."

Street Commissioner Watson Says That the Scheme is the Same as Is Used in Chicago—The Mode of Procedure—Expense is One Third of the Cost of Blocks.

Janesville people can now see a practical illustration of the work done by the new steam roller and stone crusher, by walking down to the corner of Pleasant and River streets.

For some days street commissioner Watson has been at work with a gang of men at that point and the result would seem to be entirely satisfactory. The section on which they worked was the square space between the four corners of the streets and continuing on Pleasant street to the Court street bridge.

First they dug out about two feet of earth and then the first layer of stone was put in. The stone used was of the flint variety taken from the Millmore quarry. The pieces were of uniform size and about three inches in diameter. After they had been laid in regular courses the second layer was put down.

The stone used in this layer were also of the flint variety, although of a small size. Then the nineteen ton roller was put to work, and the mass thoroughly rolled. At this stage of the proceeding, the road is wet down and left awhile, usually over night. After the soaking, the top dressing is put on. This layer is composed of stone chips and clay which fills in all the crevices, after which it is rolled hard and smooth.

"You see," said Commissioner Wilson last evening, "this process is the same as is used in Chicago and the other large cities, in making their fine boulevards and avenues, and there is no reason why Janesville should not have them."

The cost is said to be about one-third that of cedar blocks, and the street will last much longer. The only attention it requires is an occasional top dressing, which can be put on at a nominal expense.

LEOTTA PLEASED ROCKFORD.

She Is Praised By Local Papers For Her Excellent Performance.

Leotta, who will be here tomorrow evening, was in Rockford Wednesday night and the papers praise her highly. The Star says:

"Leotta gave one of the pleasantest entertainments of the season. She opened her program with the reading of Tennyson's 'Lady Claire,' in excellent dramatic style. A bird song made a fine exhibition of her voice work, and 'Come Here' made a remarkable test of her versatility. Her ability in heavier lines was shown in scenes from 'King John' and 'Coriolanus' of Shakespeare. In the lighter child dialect of Riley's and 'Mammy's Little Boy,' she did equally well and pleased her auditors. She gave sixty-five representations of famous pieces of statuary. In all her work she made a hit with the people, and should she ever appear in Rockford again she will be greeted by a crowded house."

FINE STOCK BRINGS LOW PRICE.

Thoroughbred Cattle Sold For Less Than \$100 a Head.

An auction sale of short horns from the stock farms of J. N. Chamberlain of Beloit, and White Brothers of Mt. Carroll, drew a large number of cattle raisers to the Line City, and while bidding was brisk sales were made at low figures, no animal even the fanciest thoroughbred, bringing over \$100.

15,000 Pair of Shoes are Here.

Box after box of shoes came yesterday afternoon and the entire lot of \$15,269.41 worth of stock is ready to go into the Annex. Today the store leased by us and connected with the Annex will be completed and tomorrow the goods go into it. Saturday morning will open a gala day for bargain seekers. More shoes at murdered prices than the public view has ever beheld will be pushed into sight with the opening of the door. If you are going to use foot wear for years to come will stand you in hand to fill your pockets with a little lucre and hasten to the Annex. Remember Lowell's reputation to do as he says and have what he talks about will be boisted a notch higher with the sale. A golden opportunity of this nature will not come again soon. The Annex is on River street you have heard of it before.

Indian Ford News.

Indian Ford, Oct. 10.—W. A. Little, of Center, visited our school last Friday. Master Charles Branks is reported as being on the sick list. E. Stone is on the sick list at the present writing. Mrs. J. Scarelliff and children spent Sunday with Charles White's people at Porter. Will Cross, of Southeast Fulton, went to Stoughton Monday to take treatment of Dr. Highland. Master Hope Ward left last Friday to visit his grandparents, Mr. and Mrs. Silas, of Plattville.

Almost Ready.

The men are pounding, masons are plastering and by tomorrow they will be through and Saturday the doors open on \$14,269 worth of shoes with prices checked down and hammered out of sight. Lowell's Annex.

NO REST, NO SLEEP.

How Energy and Ambition are Killed.

Vitality and Health Destroyed By Wakeful Nights.

Strong and Steady Nerves Are a Necessity.

To Neglect Them Means Certain Ruin.

Dr. Greene's Nervura Gives Strength and Vigor.

How many thousands today suffer from sleeplessness caused by nervous weakness. It is one of the incidents of American life, and you who read these lines are no doubt one of the great throng. After the day is done and when its cares ought to cease, you wish that they might fold their tents like the Arabs and as silently steal away. When night has drawn her sable curtains and all nature seems in repose, your weary eyelids long for that tired nature's sweet restorer, balmy sleep. What would you not give for the rest you had in the olden times. But it is denied you. The long hours are full of weakness and weariness, and the coming day brings only headache and heartache, impaired strength and exhausted nerves as you drag through its duties.

There is no burden so painful, and no loss so wasting. It wrecks the body and impairs the mind. It is the fearful harbinger of insanity. It has filled our asylums with its victims. You know this and gloomily dread the future. Weak, nervous and discouraged, the least excitement prostrates you, and you are always worrying over anticipated trouble. Nothing goes right and you often feel like despairing. You do not feel equal to the burden you once bore so easily.

Take heed while it is time. You are in a whirlwind of destruction. You are in the very Niagara of our nervous modern life. Do not delay. Safety is right at hand, if you will but accept it. That loss of appetite, gas in the stomach, torpid liver, constipation, nervousness, headache, etc., are but the first symptoms of the danger to come. It can be avoided, but only by acting at once.

Thousands have stood where you now stand confronted by the same frightful consequences, and have been cured and restored to health and happiness by that wonderful enchanter of sleep, that marvelous restorer of nerve energy and physical strength, Dr. Greene's Nervura blood and nerve remedy. It is purely vegetable and entirely harmless.

Mrs. L. L. Gumprecht, who resides at 198 Blue Hill Ave., Boston, Mass., says:

"After having had an attack of the grippe I was feeling very weak and completely run down. I could not eat, sleep or work. I was so weak in the limbs I could not walk or work. I was very miserable, and I thought I should die. I lost all interest in everything. I had great distress from the little food I could eat."

"After taking three bottles of Dr. Greene's Nervura blood and nerve remedy, I was entirely cured of these complaints. I feel like a different woman."

This grand restorative for the nerves, Dr. Greene's Nervura, does not contain a particle of anything injurious, and can be given to restless and sleepless infants, nervous children or the most delicate invalid with absolute assurance of beneficial results. Dr. Greene, of 35 West 14th street, New York City, the most successful physician in curing nervous and chronic diseases, discovered it, and can be consulted free of charge, personally or by letter.

THE HIGGINS JOINT RAIDED.

"Over-The-Line" Resort Near Beloit Visited by a Deputy Sheriff.

Hugh Tulley, who resides near Beloit and is a deputy sheriff for Winnebago county, Ill., raided the Higgins dive "over the line" and arrested David Higgins and Thomas Whalen on the charge of selling liquor contrary to law. The warrants have been out against these men for some time and Officer Tulley has been trying to bag both at on haul. They were taken to Rockford the same evening. The supposition is that the Winnebago officers have evidence against the men for selling liquor and it is hoped that the law will be so closely applied to them that it will result in entirely driving out all the bad lot that infests that disreputable corner.

New Law Firm in the City.

Wilson Lane and William J. Franklin, of Macomb, Ill., have formed a copartnership under the firm name of Lane & Franklin. Mr. Franklin has been states attorney for his county several times, and engaged in successful practice in Macomb for twenty years. He was in Mr. Lane's regiment during the war, and the two did much work together in Macomb. The offices of the firm will be over Cook's jewelry store, as announced by the card in another column.

Our Crockery Department

Some of the prettiest pieces of china you ever saw we have. Articles that make the table or the mantelpiece look rich. Very nice things for gifts and the end is not yet. Hardly a day passes that we do not receive a large invoice of crockery or glassware. We say without fear our crockery department cannot be equalled in the city. Lowell's Annex.

C. & N.W. PUTTING IN THE BLOCK SYSTEM

SAFEGUARDS WILL BE EXTENDED TO THIS CITY.

The New Idea of Telegraph Stations Between Towns Is the One Adopted—Bridge Foreman Henry Crane and Telegraph Foreman Smith are Doing The Work.

The Chicago & Northwestern road will extend the "block signal system" to this city, and the work is now under way. During the World's Fair season, the trains were so numerous on this line, and especially between Chicago and Barrington, that an electrical system was then put in, as far as that city. Now, however, the company have ordered that system extended, but they will use the new scheme with telegraphic stations between the towns. This station will be guarded, day and night, by an operator who will display the flag for a day signal and the red light at night. Bridge Superintendent Henry Crane and Telegraph Foreman Smith both of this city have the work in charge and expect to finish it before the snow flies this fall.

CRASH IS COMING.

Another week promises to bring a crash in African mining stocks that will shake the financial world. The total investment in the Transvaal gold mines at its par value is over \$250,000,000; while the present selling price of the shares under the influence of the boom has reached the enormous total of nearly \$1,000,000,000. Assuming that the total product of the mines for 1895 will amount to 2,000,000 ounces of the value of \$41,000,000 and deducting the average cost of working at twelve of the larger mines (about 70 per cent. of the average yield) the net average profit would be less than 1 per cent. upon the selling value of the shares. The ridiculous inadequacy of such a return upon the investment requires no argument. The craze for "Kaffirs" and the inevitable collapse of the bubble will but furnish one more sad commentary upon the folly of human nature under the influence of the fever to get rich without work.

SALES ARE HEAVIER.

The sales of Janesville retailers are increasing and it is the general testimony that the purchases have extended from the staple necessities to the better classes of goods which come under the head of luxuries. When the people buy carpets, upholstery goods, furniture and silks as they are doing now more freely than at any time since the financial panic, it is a pretty good sign that conditions have changed. This will be a good fall for the merchant who tells people what he has to sell.

AN ENTERING WEDGE.

The American pig and the American steer have hard work getting into Germany, but their pelts are welcome. Consul Merritt, stationed at Barmen, in an official report on the rise of American leather, says that the importation is increasing. He writes:

It may be fairly inferred that the manufacture of alum-tanned leather in Germany has seen its last day. This is anticipated by the German leather manufacturers, and every one is trying to discover the secret of the American production. Some have even sent to the United States for workmen. There are now dealers in American leather in all the larger cities, and many of them handle it exclusively.

So the present apportionment is fair and equitable, is it? Listen to this from the Madison Democrat: "When the republicans meet to reassertion the state let them restore to Dane county its autonomy. The partition of Dane county in the last apportionment was the next thing in meanness to the partition of Poland, the great crime of the ages."

"Gen. Jo Doe has reached Janesville after lounging in the far west a month at government expense" says the Madison Democrat. "He is said to have grown a crop of whiskers and if they don't give a buff-colored cast to his countenance it will be because his conscience is incapable of reflecting impressions."

Free postal delivery is something people in the country are justified in demanding. Even Japan and India have such a service, and the people of the United States should be willing to bear the cost of raising our postal system at least to the Asiatic standard.

There is too much strife between the Foraker and the anti-Foraker elements in Ohio this year. The republican majority will suffer in consequence.

It is reported around the secretary of state's office in Washington that no such man as Monroe ever lived.

Kentucky and Maryland democrats are racing this year to see which can pile up the most republican votes.

SOME FACTS

Relating to a Valuable Discovery

Which It Is Claimed Will Cure Every Form of Piles.

Interesting Statement of a Well-Known Druggist of Ypsilanti, Mich.

Mr. Frank Smith, the well-known and popular druggist of Ypsilanti, Mich., in speaking of the Pyramid Pile cure, says: "A year ago I sold C. C. Potter, 119 Hamilton street, Ypsilanti, Mich., a box of the Pyramid Pile Cure. He made the following statement to me to-day: 'I have been troubled for twenty years with itching piles. Have tried nearly everything that promised relief, but got very little help until one year ago I called on my druggist, Frank Smith, and got a box of the Pyramid Pile Cure. The one box used according to directions was, in my case, a perfect cure as a year spent without any symptoms of the trouble has convinced me.'"

The Pyramid Pile Cure not only gives instant relief in every form of piles, but the relief is permanent. The piles are cured and stay cured, and whether itching, protruding or bleeding piles, the results are equally satisfactory. It is rapidly taking the place of ordinary salves, ointments and lotions, as well as surgical operations, first, because it cures, and further because it is clean, convenient, painless. One can use it and go about his daily occupation, as it is applied at night and no attention is required during the day. Furthermore it is absolutely safe, containing no opium, cocaine or mineral poisons so common in ordinary pile cures. Send to the Pyramid Drug Co., Albion, Mich., for a treatise on cause and cure of piles and hundreds of testimonial letters from people who have tested the Pyramid and found it a complete cure, or better yet, ask your druggist for a package and give it a trial. Sold everywhere at 50 Cents and \$1.00 per package.

CAN'T BEGIN SUIT WITHOUT HEARING

SUPREME COURT RULING IN WATER CASE.

Notice of the Petition is Ordered Sent to The Janesville Water Company So That Arguments Can Be Heard—Attorney Jeffris Defines His Position.

Arguments must be heard before the Janesville water works suit can be commenced in the name of the state. A dispatch from Madison says: "The supreme court has refused the application of Attorney M. G. Jeffris for leave to bring action to annul the charter of the Janesville Water Company. The court says that before permission is granted, notice of the petition and all papers connected with it must be served on the Janesville Water Company, and the company must have an opportunity to be heard."

When the supreme court's decision became known on the street the belief was freely expressed that a settlement could be made out of court much more cheaply and quickly than in court, all the legal delays being taken into account. The matter has been to the supreme court twice now and twice new proceedings have been necessary.

Attorney E. M. Hyzer, of the Water Company, was in Madison yesterday and last evening City Attorney Horace McElroy and Attorney Jeffris received a letter from the clerk of the supreme court setting forth the decision of the court as above stated.

"The first I knew of the proceedings against us in the supreme court was when I read about it in the papers a week ago," said Attorney Hyzer this morning. "I imagine from the ruling made by the court yesterday, however, that we will be given a hearing the next time anything is done. Anyhow, we will be allowed to look on and see the fun."

Attorney Jeffris left the city on an early train for Burlington. He insisted that the supreme court ruling was purely a formality, and sent to Chairman Heddles of the special committee this letter:

"S. B. HEDDLES, CHAIRMAN OF THE WATER COMMITTEE—I noticed in this morning's Recorder an article entitled 'The City Knocked Out.' I am compelled to leave on an early train, and therefore will be unable to see you. The Recorder has been entirely misled in regard to this matter. The city has not been knocked out nor has the supreme court passed upon any question. The statute provides that the attorney general may appeal to that court for leave to bring an action to annul a charter, etc., under section 3242. This can be done without notice to the corporation, as it was done in the case of the Madison Street Railway, and the application has to be filed in any event.

How the Statute Reads. "The next section of the statute says: 'Upon an application by the attorney general to bring any such action, the court may in its discretion direct notice of such application to be given to the officers of the corporation previous to the hearing, and may hear the corporation in opposition thereto.' In other words, after the papers are filed and the application made, the court may in its discretion direct that the company be notified of the proceedings. This is just what has taken place in this case and nothing more. The language is plain, and neither your committee nor the attorneys for the city were misled by it in any particular. The proceedings are not wrong in any way, nor is there anything wrong about it. The Recorder is also in error speaking of another time when the city was knocked out. The case is still pending and the supreme court simply allowed a stay of proceedings upon the giving by the Water Company of a bond of \$10,000 pending the appeal. The action which has been begun will come before the court in due time and I am fully confident that the city will be able to show sufficient fraud in the whole water business, not only for bringing the suit, but for annulling the franchise of the Janesville Water Company. Respectfully,

M. G. JEFFRIS.

VURTESSEN GOT \$75 ON A FORGED CHECK

STRANGER'S ILLNESS SAID TO BE A BLIND.

While Confined to His Bed, He Got Charles Talbert, an Innocent Friend, to Cash the Paper That Proved Worthless—Chicago Police Notified To Arrest Him.

Janesville police are inclined to think that the illness of Frank C. Vurteson or Burlison, of Cleveland, O., was largely feigned that he might float a worthless check for \$75.

At least they think that way enough so that they have telegraphed the Chicago police to arrest him.

Vurteson, or Burlison—he went both names here—came to Janesville on September 16 and engaged board at the home of Mrs. Currier, corner of Locust and Center streets. The next Saturday he was taken sick, or pretended that he was. Charles Talbert, a painter employed by the Wisconsin Carriage Top Company, also boarded at Mrs. Currier's and helped to care for Vurteson and run on errands for him.

One day Vurteson got a letter for Milwaukee written on Plankinton house stationery, enclosing a check for \$75, which Vurteson said came from his relations. Later on he asked Talbert to go and cash the check.

This Talbert did, taking the paper to Bahr's saloon, at the corner of West Milwaukee and Academy streets, where he got the money on it.

Vurteson Got Better at Once.

The \$75 seemed to have an excellent effect on Vurteson's illness and he was soon able to go to Chicago and take Talbert with him. While at the World's Fair City, the two men stopped at the hotel Arlington, but when Talbert came in from a walk Vurteson was gone. Talbert then came home.

In the course of time Mr. Bahr took the check to the bank where it was accepted and sent to Milwaukee for collection. Today, however, the check was sent back with a notification that it was a forgery.

Chief Acheson and Officer Hogan were notified and succeeded in getting a good description of Vurteson from people who knew him and from Jacob Oelweiler, in whose shop Vurteson was shaved the day he came to Janesville and this afternoon Chief Acheson telegraphed the Chicago police to arrest him.

Dr. Pember attended Vurteson during his illness and has \$15 due for his services, while George King the druggist, is out the price of the medicine Vurteson used.

ALBANY MAN SETTLES WITH JUDGE BENNETT.

Riot Case That Grew out of N. B. Robinson's Attempt to Collect a Bill, Cost Hahn \$100, While the Balance Covers Liquor Cases and Justice Court Costs.

W. J. Hahn had to settle with Judge Bennett at Monroe yesterday, when the four cases against him for the illegal sale of liquor at Albany, and the "Camp 20" riot case were disposed of. Hahn was fined \$50 in three of the cases, and the other was dismissed, the defendant paying the costs. In the riot case, which grew out of N. B. Robinson's trying to collect a bill from Hahn, the charge of riot and resisting an officer was charged to simple assault, and Hahn and Lloyd pleaded guilty. They were fined \$100 each, and a nolle was entered in the case of Tilley and Montgomery. Hahn paid the full amount, \$571.50, \$208 of which was costs in the justice courts.

Wanted Light!

Goethe, the most illuminated of the German people, on his death-bed cried "More Light!" Death is to man a door into a life of more radiant possibilities. That is what we want, not when we are dead but now—"more light!"

There are too many shadows, too many mists and clouds! We live in a haze of vague, surmising, when we ought to walk out under the broad daylight of truth.

We are squinting our way through the dim corridors of priest-curated temples, while God's sun shines full in the heavens.

WINTER NOVELTIES.

Double Breasted Winter Coats — Long Wraps and Square Collars.

This winter's jackets affect various forms. They are most often straight and double breasted and fastened with two rows of buttons. The revers and trimmings are in any of a number of different styles. Embroidery, gold braiding or black or gray braiding often entirely covers jackets of light gray cloth. Velvet forms revers and fur a collar or plastron. There are also seen some small, loose jackets among the novelties, but these are not likely to meet with general favor, as their bagginess is not becoming to any figure.

Long, large loose wraps are shown with more or less odd arrangements for allowing freedom to the arms. They are adorned

FORMAL COSTUME.

with flat bows, choux, a square collar or a pelerine edged with fur or feathers. Ostrich plumage is to be worn as much as fur, to ornament not merely hats, but gowns and wraps.

Violet seems to be a favorite color for wraps both long and short, and that not a muddy or subdued purplish tone, but the real color of the flower, clear and decided.

Thick taffeta in changeable, glaze and brilliant effects continues to be in great vogue for day costumes, while for evening wear its use is almost unlimited, and there are no indications of a weariness of it. Broche silks with satin stripes on a moire and glaze ground or with broken lines are nearly as well liked.

The wattleau plait is seen on some of the latest rich carriage and evening cloaks of full length.

The illustration shows an elaborate gown of tulle and lace. The bodice is of black and gold embroidery. The bodice has a small point back and front and a draped corselet and is embroidered with black and gold. The very large gigot sleeves are plain. The draped collar is edged with a satin ruche.

JUDIC CHOLLET.

THE LATEST COSTUMES.

Characteristics of Autumn and Winter Gowns, Wraps and Trimmings.

Broche and striped silks in all varieties of ingenious weaves and colorings are to be much worn both as entire gowns and combined with plain goods.

Many of the pretty features of the past summer's gowns are retained in the autumn and winter styles. There is still a liking shown for light and vaporous effects and delicate colors. Gauze and bright silks prevail, and bodices are cut to reveal full chemisettes of tulle or mousseline de soie or puffed and plaited guimpes, while lace fichus still claim attention.

The cut of the front of the bodice determines what sort of ornamentation shall be chosen. If it opens over a full plastron, it may have plain revers or those falling in coquilles and a large turndown collar of white faille or satin. If a color is preferred to white, it must be something that harmonizes with the tint of the gown, most

STREET COSTUME.

advantageously the tone of the ground of the fabric, or the predominant color. Bodices having a square yoke effect will look well with the guimpes covered plainly with guipure or simply outlined with an arrangement of ribbon. For trimming corsages with a round yoke effect slight draperies are employed and bows of satin or velvet.

Flowers will be much used for trimming, being placed on the bodice and arranged regularly in small bouquets around the foot of the skirt. The extreme edge of the skirt may be finished with a torsade or a narrow puffed drapery.

The illustration shows a walking costume of gray blue cloth. The skirt falls in godets at the back, the tablier being flat and framed at the sides by a tapering panel of white cloth embroidered with black. The bodice has bretelles of embroidered white cloth, the space between them in front being filled by a chemisette of blue surah the shade of the goods, gathered at the top into a small pointed yoke of white embroidered cloth. The high collar is of white cloth and the draped belt of black velvet with coques at the back. The gigot sleeves of blue cloth are embroidered with black up to the elbow.

Weary and Worn.

When the tired factory operative, the weary outdoor laborer, the overtasked bookkeeper or clerk seeks a medical recompense for expenditure of bodily force, where shall he find it? Could the recorded experience of thousands of workers be voiced, the verdict would be that Hostetter's Stomach Bitters renews failing strength, stimulates the jaded neural powers to fresh activity, and relaxes undue nervous tension as nothing else does. Digestion, a regular habit of body, appetite and sleep are promoted by it, and it is an admirable auxiliary in the recovery of health by convalescents. A fastidious stomach is not offended by it, and to persons of both sexes in delicate health who occasionally feel the need of an efficient tonic, the whole range of the pharmacopoeia and the catalogue of proprietary medicines does not present a more useful, safer or more decisive one. It is also incomparable for fever and ague, rheumatism and kidney troubles.

A card on the outside of office door says: "Gone to lunch. Be back in ten minutes." And, the man will be there on time. That is, for some days, weeks or even months, he will. Then he will be at home occasionally for a day. He'll tell you he had a headache—a turn of cholera morbus, or maybe he'll say he had a lump in his stomach and felt too miserable to move. The lump was probably two or three ten-minute lunches condensed.

FILTRELING OUT RHEUMATISM.

RHEUMATISM IN THE BLOOD.

It is Caused By a Poison That Can Be Filtered Out.

The Kidneys are Our Natural Filters and Keep our Blood Pure—When They are Sick We Get Rheumatism, Etc.—The Way To Cure Our Kidneys.

Though you may not know what disease you have perhaps you may not know what causes it.

Rheumatism is a blood disease. It gives you pain in your muscles, but this is easily caused by the poison in your blood.

People used to think because the muscles were sore, that they could cure rheumatism by rubbing the muscles with liniment, but all the liniment in the world will not cure rheumatism.

Nothing will do it but filtering the blood.

When the kidneys are well, they filter the blood and keep it pure and healthy. They filter out the all the waste matter; the poison the uric acid, and throw it out of the system.

When they are sick they don't.

When they are sick you get rheumatism, or perhaps gout, anaemia, pale sallow complexion, headache, neuralgia, Bright's disease, diabetes, pain in the back, sleeplessness, and a long train of similar troubles.

When your kidneys are sick, you should take Dr. Hobb's Sparagus Kidney Pills. They will cure your kidneys. When your kidneys are once well, everything else will be well.

Well kidneys purify your blood as it ought to be purified. They make it fresh and clear and healthy.

Pure blood makes a clear, rosy complexion, bright eyes, glossy hair, red lips, clear brain, happy thoughts.

The healthier your kidneys, the purer your blood.

Asparagus is a plant which has a very strong healing and tonic action on the kidneys. It is one of the chief ingredients of Dr. Hobb's Sparagus Kidney Pills.

Dr. Hobb's Sparagus Kidney Pills are perfectly harmless, purely vegetable, pleasant to take, and will cure when other prescriptions or medicines have failed.

There is no reason why you should stay sick. If you want to get well you can. All you have to do is to cure your kidneys. This can be done with Dr. Hobb's Sparagus Kidney Pills.

A box of Dr. Hobb's Sparagus Kidney Pills should be kept in the house for you don't know how soon you may need them.

A few doses will relieve. Pain in the back, in the joints, in the muscles, will all go after a few doses of Dr. Hobb's Sparagus Kidney Pills.

A few boxes will cure. When your kidneys are well nothing will bring back your disease again but carelessness.

Overwork, worry, excess, overeating, will make your kidneys sick again. Will bring back your rheumatism, gout, kidney troubles, etc.

But otherwise, once gone they will stay away. Dr. Hobb's Sparagus Kidney Pills cure thoroughly.

They renew your kidneys, your blood and your health.

For sale by all druggists, or by mail prepaid for 50 cents a box. Valuable medical pamphlet sent free on request by Hobb's Medicine Co., Chicago or San Francisco.

We have now in stock and ready to show you the latest styles in foot wear. Come and see them. Brown Bros. & Lincoln.

AN INSECT'S FOOT-FALLS.

The Microphone Makes the Hoof Beats of a Fly Sound Loud to the Ear.

The improvements which W. H. Souby has lately added to the microphone, or "sound magnifier," makes it one of the most marvelous mechanical contrivances of the age. The special construction of this instrument is of no particular interest to any one except experts, but what is told of its wonderful powers as a magnifier of sounds will entertain young and old, as well as the scientific and unsentimental readers of "Notes for the curious."

After the instrument had been completed with the exception of a few finishing touches, Souby found it absolutely necessary to keep the door of his workshop tightly closed, so as to admit no sounds from the outside, otherwise the inarticulate rumblings given off by the "ejector" would have become unbearable. Even with closed doors the cap had to be kept constantly in place on the receiver to keep the instrument from sending forth a roar, which previous investigation had proved to be a combination of sounds produced by watch beats, breathing, the hum of flies, etc. A fly walking across the receiver of the instrument made a sound equal to a horse crossing a bridge, and when Mr. Souby laid his arm across the box the blood rushing in his veins gave forth a sound which much resembled that made by the pump of a large steam engine.

The playing of a piano in a house across the street was, when ejected from Souby's machine, like the roar of an avalanche, and the washing of dishes in the kitchen of a house across the alley made a sound which the inventor of the machine says was a "burden to his soul."

When anyone entered the room, walked about, coughed, touched the table or door handles, the shriek which issued from the ejector was most painful to hear. Hundreds of uses have been suggested for the microphone, the most practical being those of blood circulation and lung test.

LONDON FERRIS WHEEL.

The Princess of Wales the First Lady Carried Around the Huge Machine.

England loves pluck, and the Princess of Wales has recently proved that she possesses a quality dear to all our hearts. She was the first lady to take her place in a carriage upon the great wheel at the Indian Exhibition, and the first to make the circuit of its enormous revolution. She was accompanied by her daughter, the Duke and Duchess of York, and some ladies of her suite. Of course there is not the least danger in the act, but then there are many ladies who would feel nervous about it especially as it had not long been in use and only open for the public for a day. Since then it has, to use an Americanism, "caught on," and crowds through the carriages at every revolution. They resemble nothing so much as a very comfortable railway carriage, and the pace at which the wheel moves is so slow that there is ample time allowed for the survey of the marvelous view over London afforded by it. To understand the enormous size of this great mechanical triumph you must stand under it and look up at its tremendous proportions, the dizzy height of the half-way resting places, which will soon be opened as restaurants, and the vast size of the carriages, each capable of containing thirty persons. Certainly the princess inaugurated one of the great enterprises of the season.

Word Studies.

"Dago," as applied to an Italian, is incorrect as well as impolite. It is a contraction of Diego, pronounced "De-ay-go," the patron saint of Spain.

All the older forms of "good-bye" express the same idea. "Good-bye" is "God be with you!" "Adieu" and "adios" are "I commend you to God."

A neighbor is merely a "nigh boor," or the nearest farmer. "Boor" is in this sense not an epithet, but the equivalent of "Bauer" in German, or "Boer" in Dutch.

The Bowery boys, themselves dwellers on a street named for a farm or "bouwerie," use "farmer" as an epithet.

Both "villa" and "town" were formerly used to mean a farm. Gradually the former came to mean a country residence, the latter a collection of houses.

"Peck" was at first merely a basket of any size. "Furlong" was a furrow long. "Rivals" were those who dwelt on the same brook and were apt to quarrel about the water.

Try These Tongue-Twisters.

"Here is a sentence that will puzzle you to read correctly at the first trial," remarked the commercial man as he wrote these words on the back of an old envelope: "She stood at the gate welcoming him in." The hotel clerk glanced at it and confidently began, "She stood at the gate welcom—"

"Then there was a confused murmur that sounded like 'mingmingming.' The newspaper man then tackled the sentence with no better success. 'Here is another hard nut,' said the commercial man as he wrote: 'The rain ceaseth then it ceaseth to rain.'

Terrible Situation.

"Ugh! I had a dreadful nightmare last night."

"Why, you do look bad. What was it?"

"You know I owe my tailor \$150 and I dreamed that I went up to him and paid it."—Chicago Record.

His Private Opinion.

"Do you think the bicycle is wicked?" asked the earnest young woman.

"My dear sister," answered the minister, who had only taken three lessons, "the thing is positively depraved."—Pittsburgh Dispatch.
